

Installation Instructions Jet Hand Dryer

1. Remove the chassis

- Prior to installation, remove the two screws and lift off the outer chassis to expose the mounting plate.

2. Fix the mounting plate:

- Having removed the mounting plate from the rear of the dryer, fix to the wall using the provided fixings as per the diagram measurement guide.

3. Hang the dryer on mounting plate:

- Carefully hang the dryer chassis on to the mounting plate and ensure it is securely attached.
